DRINK GURD'S DRINKS

"They Satisfy"

GURD'S GINGER ALE—The basic beverage upon the reputation of The House of Gurd has been built to such large proportions.

GURD'S CALEDONIA WATER—The select Table Water.

GURD'S DRY GINGER ALE—The most select success of the most select social seasons.

Ask for Gurd's Drinks at "The Union"—"The Club"—"The Fraternity," and from "Your Home Purveyor."

ELECTIONS ARE KEENLY CONTESTED

Students Show Great Enthusiasm in Voting.

LARGE VOTE POLLED.

Tremaine, Laishley, Crain, Parlow and Robinson Elected.

Yesterday saw one of the most exciting elections held around the university in years. There were one thousand and sixty-five votes cast, and when it is remembered that Medicine, which has nearly eight hundred students, elected its representative by acclamation, it is seen that a large number of the students showed enough college spirit, and enough interest in the elections to turn out and vote. It is indeed a pleasant change from former years when only a small minority of the students had enough energy to cast their ballots. All day long there was a steady stream at the polls, men could be seen everywhere canvassing for their respective candidates.

The closest battle was that between Tremaine and Johnson, both candidates in Arts. The former won by a majority of six votes, netting 196, while Johnson got 190. The result was in doubt until the last piece of paper was opened. In Science there was another battle royal. Eddie Crain managed to head the list with 162 votes. Cuttle was next with a total of 136, followed by Parsons with a count of 118, and Dickinson with 106. There were 522 votes cast in Science.

Robinson was returned the lawyer's favorite and obtained 35 votes. Wilkes got 18, Martin 14, and Taylor 7. In Dentistry Laishley led his only opponent MacMillan by fifty-seven votes, while Crain in all Parlow was the choice of the Meds by acclamation.

The following is the list of faculty representatives to the Students' Council.

Dentistry—Laishley.
Science—Crain.
Law—Parlow.
Arts—Tremaine.
Medicine—Robinson.

These men will take office on the first day of January, 1922.

NEWFOUNDLANDERS PLAN BIG SEASON

Skating Party to be Held in January.

At a meeting of the Newfoundland Club held at Strathcona Hall last night it was decided to hold a skating party in the first week of the New Year. The social committee was appointed consisting of R. L. Lemesurier, J. H. G. Way and F. Ellis.

The inter-sectional club dance which will take place in the middle of February was also discussed, but nothing definite is yet known of the plans.

Sir Thomas Roddick, who has been the Club's Honorary president since its inception, was elected as Patron. The position of Honorary President will be filled at a later date.

THE JOURNALIST'S CREED

I believe in the profession of journalism.

I believe that the public journal is a public trust; that all connected with it are, to the full measure of their responsibility, trustees for the public; that acceptance of lesser service than the public service is betrayal of this trust.

I believe that clear thinking and clear statement, accuracy and fairness are fundamental to good journalism.

I believe that a journalist should write only what he holds in his heart to be true.

I believe that suppression of the news for any other consideration than the welfare of society is indefensible.

I believe that no one should write as a journalist what he would not say as a gentleman; that bribery by one's own pocket-book is as much to be avoided as bribery by the pocket-book of another; that individual responsibility may not be escaped by pleading another's instruction or another's dividends.

I believe that advertising, news and editorial columns should alike serve the best interests of the readers; that a single standard of helpful truth and clearness should prevail for all; that the

SOPHS. WINNERS IN RIGMAROLES

Many Types of Stories Told.

The Sophomores' year has now achieved a new distinction. They are the best story-tellers in the college. This is not meant as a reflection on their excellent moral character but is the natural inference from the fact that they were awarded the prize, yesterday for the best rigmarole, at the Delta Sigma meeting. "The attendance at the meeting was not as great as could be desired, the Freshettes being especially conspicuous by their absence. The winning team, consisting of the Misses Russell, Robins, McWatters and Murray, told a fairy story centering round a certain "Wine of Life" which, to judge from its effects was of pre-prohibition vintage. After the three heroines of the story had imbibed it a gnome appeared, and offered to grant to each her dearest wish. The wishes were granted, but the girls find out that they do not really satisfy and return to their humble home.

The third year, represented by the Misses McPhail, Gross, Wood-Loch and Evans told a touching romance of a youth who apparently fell in love with every maiden he met.

Brown or blue eyes were alike to him and it was no obstacle if the lady was already married. But in the end he settles down with his first love and we hope they "lived happily ever after."

The Fourth year Team—the Misses Newnam, Howell, Rough and Stewart told a hair-raising tale of the supernatural. A harmless chest, declared by its depositor to contain "the bones of my father," is left under the kitchen table of a perfectly normal household. Many complications ensue and a sleepless night is passed by the couple in whose house the chest has been left. In the end the man who left the box is proved to be insane and the strange visions seen at night merely hallucinations of the imagination.

The first year, whose team consisted of the Misses Appleck, Perrin, Eardly and England told a story of adventure connected with a search for the jewels of the Empress of Russia. The hero, a certain Mr. Johnston, is pursued by malevolent fate in the shape of a man with a big black moustache and a red handkerchief around his neck. They go first to London and then to Russia and have many surprising adventures.

Mr. Lambert, who gave the decision of the judges, spoke very amusingly and gave some very helpful criticism. Miss Cameron and Mr. Latham were also judges.

FOOLISH

"How do you get down off an elephant?"
"You win—how?"
"You don't get down off an elephant you get it off a duck." —Purple Cow.

"DAILY" VACANCY.

There are two positions open on the "Daily" staff, for a couple of men who are willing to come down to the office on Wednesday evening. Any undergraduates who would care to try out as reporters for these openings, are asked to visit the "Daily" between 1 and 1.30 p.m. today; if Wednesday is not a suitable day, possibly some other arrangement could be made.

GOOD PAPERS READ BEFORE HISTORIANS

C. H. Whitmore and C. Wadsworth Were Speakers.

TO MEET DEC. 14.

"Pontiac in Canada," and "Inca Manco" Were Subjects of Papers.

The most successful meeting of the Historical Club was held last night when C. Wadsworth and C. H. Whitmore delivered two very excellent papers on topics of interest. Mr. Wadsworth handled the life of a noted native of Peru, of the sixteenth century, named, Inca Manco. This leader, Inca Manco, came into power after the battle of Atahualpa and succeeded his father Pizarro whose name also is of historical importance.

Wadsworth in his paper clearly outlined the life of this interesting character. The situation of the country and the hardships of the Spaniards and natives were clearly brought out. The Spanish greed for gold and other forms of treasure led them into a great deal of trouble with the natives of America.

Whitmore's paper dealt with war in a different part of America. With the completion of the British Conquest in Canada in 1763 the Indians were moved by the words of the French officials prior to their departure and by the stirring words of an Indian Chief named "Pontiac." The underlying object was the reconquest of the Indians Country from the white settlers who were pouring over their hunting grounds.

Pontiac with the aid of most of the tribes in eastern Canada entered upon a very carefully prepared plan of attack. Every fort was to be taken by surprise, and the garrison massacred. The early stages of this war brought success to the Indian warriors, who carried out their savage and treacherous warfare in a most cunning and brutal way, while it was only after much hard fighting that these colored patriots were finally overcome.

The next meeting of the Club will be held on December 14 when two papers will be read dealing with the histories of the Liberal and Conservative parties in Canada.

REDUCTIONS IN MEALS REPORTED

Prices at Union Furnish Joyful Surprise.

Students who are accustomed to eating their noonday lunch at the Union were given a pleasant surprise yesterday when their gaze was met with the astonishing announcement that the prices of luncheon had been reduced to forty cents. At the evening meal the reduction in price was not so great, the meals being marked down five cents, but it was still welcome to all of the men who had travelled to the cafeteria on hearing the news of the cut in price earlier in the day.

The radical slash in prices was the cause of much astonishment to the majority of the men in the vicinity of the Union and there were numerous inquiries.

(Continued on Page 3.)

DOCTORS HONOR ARTS PROFESSOR

Dr. W. D. Tait Will Read Paper at International Convention.

Dr. W. D. Tait of the Faculty of Arts will deliver a paper before the American Association for the Advancement of Science, at the end of this month. The subject of his address will be "The Educational Aspect of Mental Tests."

Dr. Tait is well known as a psychologist and besides being in charge of his department at McGill University he has been Psychologist at the Royal Victoria Hospital. As a student of Abnormal Psychology Prof. Tait has a noted reputation while he and Dr. Bridges, of the University of Toronto, are the two authorities on mental tests in Canada. It is interesting to note that the latter is a student of Dr. Tait.

The American Association for the Advancement of Science is very similar to the British movement for the same purpose. This American society has made Toronto the seat of its convention which meets during the week of December the 30th.

MONTREAL, THURSDAY, DECEMBER 1, 1921.

GOOD SIGNS.

The heavy voting in the elections yesterday shows the very keen interest that is being taken in student affairs, and might well have been expected after the two months of feverish activity which have followed the opening of the session. When it is considered that the candidate from the Medical Faculty was elected by acclamation, it might well be said that the percentage of undergraduates who went to the polls yesterday was the largest during the whole period of student government at McGill.

The excitement about the college throughout the day when the election was taking place was a pleasant sight to the men who have the students' interests at heart. It was also very good proof of the statement that acclamations are unhealthy and should never be resorted to when offices are being filled. No doubt the right men are very often chosen by acclamation but, whether this is true or not, the large mass of the students has no chance to give an expression of opinion when there is no voting.

Success followed the active campaigning by the supporters of the candidates, and it is an object lesson to the undergraduates at future elections. There is one aspect of the campaign that should be taken as a warning by the men. To a good part of the students who were voting the nominees for office were more or less unknown. The fault does not lie with the men who were running for office, but rather with the students who have not followed the leaders in college activities closely enough. There will be more elections early in the spring, and every man in the college should begin at once to watch the students active about the university, so that both nominations and elections may be followed in an intelligent manner.

REASONS NEEDED.

The Literary and Debating Society has decided to postpone the Mock Parliament until after the Christmas holidays. No doubt they have reasons for doing so, but they should be very important before such a step is taken. The announcement concerning the postponement mentioned that the hall could not be secured to-night owing to the fact that the informal dance was taking place to-morrow, presumably because they feared that the floor would be damaged.

Granted that the hall could not be secured for to-night, is there any valid reason why the parliament should be postponed until next January? The list of student activities is not so long that one evening could not be set aside during the next three weeks for the next session of the parliament.

Students are peculiar individuals in many ways, and the executive of the Literary and Debating Society, by allowing a long period to elapse between meetings, is likely to find that interest in the Mock Parliament has waned. Just at the present time there is a great amount of enthusiasm about politics in general, and especially about college politics. No better period of the year could have been chosen for the sessions of the college parliament.

Many of the students who had been looking forward to the next session of the parliament with interest would be very interested to learn all the reasons for cancelling the events. Preparations had been made by many, and it was rumored that a new party was to appear in the house in opposition to those of long standing.

A full statement from the President of the Society in charge of the parliament will be welcome to all of the students who have been following the fortunes of the college politicians.

CHANGE PROPOSED BY PENN. IN BASKETBALL

In order to effect what it is hoped will be an improvement in the basketball foul penalty, the Pennsylvania basketball management is making an effort to institute a new penalty designed to take the place of the usual foul throw. The new rule as approved by the basketball committee will permit the player upon whom the foul is committed to gain possession of the ball and give him a chance for a free play of any sort from the spot where the foul is called.

Under the suggested change the ball will immediately be called dead upon the perpetration of a foul. The player upon whom the foul has been committed will then have free possession of the ball and all opposing players will be forced to stand at a certain distance from him while he gains possession of the ball. This distance has been temporarily set at six feet. The man in possession of the ball may pass, shoot or dribble.

At the close of each basketball season during past years there has been considerable criticism of the foul shot specialist. Pennsylvania has always had an excellent foul shooter. In the crucial game of the series last year, Captain Danny McNichol succeeded in scoring nineteen out of twenty-one free shots and the opponents' lead was barely overcome. Several years ago, Danny's brother Eddie, in a game with Prince-

"COLLEGE NIGHTS."

"College Nights," at which the entire student body of the school get together, have been instituted this year at the University of California. The meetings, held several times a month on Friday or Saturday nights, were planned to provide entertainment for the whole student body, and at the same time bring students of the school in closer touch socially with one another. The "College Nights" are directed by the Student Welfare Committee.

A NEW QUESTIONNAIRE.

In order to bring to light abilities that otherwise might not come to the attention of those who direct collegiate activities, the University of Notre Dame distributed questionnaires this year, calling for information about the students' preparatory school activities. The information obtained was accurately catalogued by the Students' Activities Committee, and placed at the disposal of those in need of material in extra-curricular work.

ton established a record by scoring twenty-one out of twenty-one attempts. Therefore the basketball committee is sacrificing a great asset when it proposes the new change. Fairness to all concerned is the reason given by Chairman Ralph Morgan.

CORRESPONDENCE

The Daily is not responsible for the sentiments of letters published in the correspondence columns. Signed communication from graduates, undergraduates and members of the faculty will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE SIDE OF THE PAPER ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

The Editor,

McGill Daily:—

Dear Sir,—I am not a confirmed pessimist or knocker, but I am writing this short letter not in the spirit of criticism, but of uplift.

The Library is at present unfortunately undergoing alterations, necessitating the exclusion of all students from the stacks. This in itself constitutes almost a hardship for the honour student or any student composing a thesis. True we may take books out and read them in the library, but here the insidious talkative pseudo-friend or the obnoxious pair of freshmen at the next table render work impossible. It is this latter menace to our powers of concentration that must be stopped. Something must be done officially. No amount of table-tapping on the part of the earnest workers intimidates these disturbers.

Trusting something can be done about this to the benefit of the whole University, I remain,

Sincerely,
ARTS '22.

SCRIBE RE TOPICS

They was a "Wanted Add" in one of Montreal's leading sheets of noons, the item:—

All yukelally players wanted (of Montreal city) to be on hands at the Grand Trunk Station to meet the great dancing queen who will be seen at Loews this week all dolled up in shredded-weet. The great Hoolla Hoolla jane will not be able to dress in her native tongue owing to the inclement weather man.

I am going to half a add put in the "Delay," soon as possible to half all the crap-shooters at the Station to welcome Jack Johnson wen he comes to town next month.

I have ordered an extenshun an the Station to hold the followers of the vice of dice. This will help the Grand Trunk. My frens in McGill were reminded last wk. to meet Lord Beatty and other gents of the Conference to be at the station with there model boats and etc., and jest as the Sunday gents arrive to take hammers and smash the boats to show the gents that Montreal is behind them to back them up.

Springing out of this comes the new theory wich will solve the unemployment "p."

Buy materials, then let the people out-of-work in our village, build ships then after they's maid drop them in to the St. Lawrence R.

If they don't sink hawl them up and scrap them. Keep this going on and on and on and on till these people die of dizziness. Don't you get me deer reader. Then we'll be so tickled that we will excuse Germany's war debt. If she doesn't accept it we can stick out our tongues, as they do in Ontario and pay it for her—get me?

A newspaper in Canada wich I sometimes read says:

A house in Pt. Claire for sale all modern conveniences near the railroad and Golf stream.

I wish to correct this. Instead of (Golf) stream, they mean (Gulf) stream.

—Land and Ocean Services paper please copy—

Will the stooedents (both of them) who visits the McCord Museum come along of me and conduct me to the Bldg. wich appears to be kept a secret from the stooedent bodies so far. I been told that you can trace the history of Canada from room to room if you're quiet. You can spend a lot of time in the bldg. because grocers tell us that history repeats itself.

Well, I'm off to see the police force change there bedclothes, after I get a hair-cut at the Speedway Dandruff, Hair and Scalp remover shop.

SCRIBBLING SCRIBE.

Now lets start afresh like the woman with a past.

Remember wat I said about the voting at the polls children—you know wich side to cast the vote one. If you don't I'll send you a circular letter wich is a letter wat comes back.

I've jest accepted the job of editors on the Boomerang press. Getting a lot of experience on the Delay because most of the stuff I rites comes back in the foam of correspondence. Like putting a nickle in the gum slot.

If you knock one of the platforms of the parties wats causing the fuss, it will fall on you jest as sure as Meighen or King is on the way to succeed.

S. S.

If the night is dark and cosy
Don't it make a fellow blue
To hear the lights flick out upstairs
And papa drop his shoe?

PEPYS AT MCGILL

Wednesday, Nov. 30th. All the morning in the Arts Building, to divers plottings anent the manner in which we should best entertain the Sophomores at the banquet this night, and I won great measure of applause from my comrades by offering as my share a flagon of a very rare old cordial which I had brought with me out of England for just such an occasion. At noon to dine with a friend, and we going into an eating-house kept by a Chinese were served with a dish of a most devilish compound of all sorts of meats, and caused me many misgivings even at the eating of it. Then to His Majesty's playhouse, I having no discourses, where seated once again near the rafters I saw a certain comic actor out of Scotland and a knight, which seems a strange thing. Though I like not the barbarous scotch tongue he sang very prettily in it, and very funny the while in his antics, but towards the end I was distressed inwardly with qualms in the stomach occasioned by what I had eaten at noon, and so was forced to go outside into the ayre, and then to betake myself speedily home as best I might. So towards night one of my fellows who would have gone to the feasting with me, coming in and finding me thus stricken, condoled with me very hastily, and then made off again bearing with him the flagon of fine cordial that I would have taken with me; and I being in a sad state could do nothing to stay him. And thus I lie now a-bed in great pain casting up my accounts at the month's end, and I find many grave expenses set down therein; a pair of goloshes which lasted for no time; my flagon of cordial, and all the money that I was made to pay for the banquet this night, which I may not even taste. So I resolved to be more careful this new month, but Lord, a student at these colleges can scarce make his way if he have not means in abundance, which is surely a scandalous thing. I also resolved never more to eat of strange dishes, and this I mean most earnestly to keep.

ALPHA OMEGA ALPHA HEAR PROF. LLOYD

Interesting Paper Read at Meeting.

FULL ATTENDANCE.

Physiology Was Subject Under Discussion.

The November meeting of the Alpha Omega Alpha honorary medical fraternity was held last night in the Grill Room of the Union. A full attendance of honorary, graduate and active members sat down to dinner at 7 o'clock, and when the business of the evening had been disposed of Prof. F. E. Lloyd of the department of Botany presented a paper.

The subject of the address was "General Physiology as a Discipline in Medical Undergraduate Study." It opened a field of discussion which was productive of many stimulating ideas. Historically, the practice of medicine has been inseparably connected with knowledge and study of general physiology, and especially with botany and the used herbs. The earliest Greek physician approached their medical labors with a complete and philosophical understanding of plant life, not only regarding the obvious leaves, flowers and fruits, but also the roots and juices of the herbs. The purpose of this botanical study was twofold: first to obtain drugs useful in the healing art, and in the second place to try to understand the processes of life in vegetable substances, in order that the mysteries of animal life might eventually be understood.

An parallel to these very earliest records of medical effort, we find at the present day that study of life processes, as available in plant life, is the best stimulus to the proper approach of the problems of medicine.

Fruitful scientific work by the country doctor or by the laboratory specialist can only be hoped for if the mind has been prepared to approach each separate problem in an attitude of inquiry and truly deep thinking.

The best way that the intellect of a student can acquire the practice of this thinking effort, is by the careful study of the principles of general physiology. Several honorary members contributed to the interesting discussion which followed the papers.

A physician claims to have restored two patients to sanity by pulling their teeth. When they see the bill they may go crazy again.

ENGLISH IS MOST POPULAR OF COURSES AT HARVARD.

Statistics Show 75 More Men Enrolled in This Department Than in Economics.

According to statistics made public by the Committee on the Choice of Electives, English is still the most popular course at Harvard; the number of men taking the course exceeding those in economics by more than 75. The figures for the first five courses in order of popularity are as follows: English, 378; economics, 302; romance languages, 178; chemistry, 160; and history, 134.

Condemned to die, a Sing Sing prisoner has applied to the Workmen's Compensation Commission for damages caused by an injury to his little finger suffered when a gun was accidentally discharged at a rod and gun club where he was employed.

THE JOURNALIST'S CREED.

(Continued from Page 1.)
supreme test of good journalism is the measure of its public service.
I believe that the journalism which succeeds best—and best deserves success—fears God and honors man; is stoutly independent, unmoved by pride of opinion or greed of power; constructive, tolerant, but never careless; self-controlled, patient; always respectful of its readers, but always unafraid; is quickly indignant at injustice; is unswayed by the appeal of privilege or the clamor of the mob; seeks to give every man a chance and, as far as law and honest wages and recognition of human brotherhood can make it so, an equal chance; is profoundly patriotic, while sincerely promoting international goodwill and cementing world comradeship; is a journalism of humanity, of and for today's world.

McGill Men!

In telling the merchants of the city when you make purchases from them, that you are from McGill, and that you are out to give "McGill Daily" advertisers first chance, you are doing nothing more than giving a square deal to two people---the Daily and the Advertiser.

And you owe it to them!!!

POLO TEAM WINS FROM NATIONALS

McGill Now at Head of City League.

MUNRO STARRED.

Swimming Club to Practice for Meet with Brown and Varsity.

Last night McGill's Intermediate water polo team defeated Nationals in a hard-fought, well-played game to the tune of 7-2. Although the play centred in the Nationals' territory most of the time, yet the east-enders put up a gallant defence, and made a splendid come-back in the last quarter, scoring two goals in swift succession.

The game commenced with Nationals attacking the deep end. Munro opened the scoring for McGill with a swift shot past the goal keeper. Vickers followed this up with another shortly afterwards. He attempted a shot from the side, which Lacourciere stopped and fumbled; Munro then swept in and bundled both ball and goal-tender unceremoniously into the net, making McGill's third tally for the period.

The second period was slower than the opener; Munro did all the scoring, sending in a couple of swift shots, which Lacourciere seemed unable to stop. Indeed, it is doubtful if he even saw them. Nationals' defence stiffened somewhat after this, and held. At half-time the score was—McGill, 5; Nationals, 0.

The second half opened with the east-enders making a violent onslaught on the McGill goal. This was by far the most interesting part of the game. Nationals seemed tireless, but McGill managed to keep the play out of home territory. Then Anson, of McGill, got the ball and sent in a long shot, for the only scoring during the period.

In the fourth period, Forsyth made McGill's seventh and last tally with a brilliant shot from the side. Nationals stiffened. Lacourciere then replaced Duckett, got the ball, and swimming the length of the tank opened the scoring for Nationals by getting past McKindsey in goal. Monty duplicated the performance an instant before the whistle blew.

The line-up was as follows:

Goal.
McKindsey Lacourciere
Defence.
Anson Duckett
Forsyth Valiquette
Centre.
Ross Tremblay
Forwards.
Munro Laurendeau
Vickers Monty
The officials were:
Referee—Walter Foran.
Judge of Play—Eddie Duclos.
Goal Umpires—A. W. Moore and R. Baril.
Penalty timekeeper—A. Gravel.
Timekeeper—Phipps.
The scoring by quarters, was as follows:

First Quarter.
McGill 8
Vickers 1
Munro 1
Second Quarter.
McGill 2
Munro 1
Third Quarter.
McGill 1
Anson 1
Fourth Quarter.
McGill 1
Forsyth 1
Lacourciere 1
Monty 1
Nations 2
Munro, ably supported by Vickers, started for McGill. Monty and Lacourciere were the outstanding players for the Nationals. The latter team has, in Coach Vernot's opinion, shown marked improvement over its last exhibition against McGill.

Last night's victory has made McGill's chances for the intermediate championship look very bright. Another victory for the Red and White, and two for Maisonneuve, will, however, bring about a tie between the present league leaders. McGill will play her last scheduled game next Friday at the Central Y.M.C.A., with LaSalle.

The present league standing follows:

Team	Won.	Lost.
McGill	8	1
Maisonneuve	7	1
M.A.A.A.	5	3
M.S.C.	2	6
LaSalle	1	7
National	1	8

Despite the great things already accomplished by the Red and White mermen, their work has only begun. Coach Vernot plans to start vigorous training soon for the coming swimming meets with Brown and Varsity. To-morrow night the Swimming Club will start training at the Central Y.M.C.A. Mr. Vernot expects every member to turn out sharp on time, as this practice will be an exceedingly important one. He expressed himself as being gratified by the splendid showing that Vickers and Ross have made so far this year.

Watch—And why does that man always refer to you as his baby girl?
Fob—Oh, I don't know. I suppose he keeps him up so late of nights.

JUNIOR TEAM ENGAGES IN STIFF DRILL

Prepare for St. Lambert Game on Saturday.

SHAG. IN CHARGE.

For Championship of Q. R. F. U.—McGill Undeclared in Three Years.

For the first time this season, Coach Shaughnessy has been able to devote his entire attention to the Junior Rugby team, and the squad has profited considerably by his instruction. The third team is putting the finishing touches on its preparation for the final and crucial game of the season with the strong St. Lambert Tigers. The championship of the Q. R. F. U. is at stake and the Juniors have been training faithfully in order to keep the slate clean. For three years McGill has stood undefeated in this league and the men are anxious to lift the crown for the third successful year.

Despite the snow-covered field the team was driven through one of the stiffest practices of the year, yesterday afternoon. Until long after sundown the men were put through the various plays used by the Senior team during the season recently closed, and it is expected that the St. Lambert aggregation will have great difficulty in breaking up the numerous shift formations used by the Red and White. The wings were sent down under punts and notwithstanding the condition of the field got down with great speed; their tackling was deadly and "Shag" was greatly pleased with the work of the outside men. The backfield which has been re-enforced by the addition of Grasic and Chisholm, who figured prominently on the Medicine team in the interfaculty Rugby league, possesses a great deal of power. Captain Hutcheson at quarter, McConnell and Davies have been consistent ground gainers and will probably tear through the Tigers' line for many yards. The forward line has been shifted around a good deal in order to get the strongest combination and St. Lambert will have to show unusual strength, if they are to gain by line plays.

The contest on Saturday will probably take place at the Stadium and a large turnout of students is looked for to cheer McGill on to another championship.

R.V.C. BASKETBALL MAKES PROGRESS

Seniors and Juniors Were Victorious Teams.

Yesterday afternoon, in Molson's Hall, the second series of R. V. C. Inter-class basketball matches were played off. The playing all around was better than last week. The Seniors won from the Sophs, 22-17, and the Juniors won from the Freshies 50-7. During the second part of the afternoon the Juniors II beat the Grad-Partials 16-10.

The game between the Seniors and Sophs, was by far the more interesting to watch, since until the last five minutes it was anybody's game. The Senior forwards were perhaps a little happier in finding the basket, and Miss M. Howell played a very good game. Miss Fry, for the Seniors, and Miss Pennington, for the Sophs, played very well at centre.

The Juniors of course quite out-classed the Freshies, but it may be remarked that the Freshies put up a much better fight against the redoubtable '23 than did '24 last year. For the Juniors Miss D. Russell, Miss Slack and Miss Leggat play outstanding games.

The Grad-Partials had a very good team, but their shots could not score as many goals as the Juniors. In the second half Miss Spier changed from centre to shot for the Partials, but she was unable to pull the game out of the fire.

Teams:

Fourth Year.	Second Year.
T. Rough	P. Murray
M. Howell	E. Russell
Centres.	
M. Fry (jumping)	M. Pennington
C. Snyder	E. Basken
Defence	
J. Henderson	M. Cameron
H. MacIntosh	C. Robertson

Third Year.	First Year.
M. Leggat	T. Sommerset
H. Marshall	L. Chalk
Centres.	
D. Russell (jumping)	M. Walsh
A. Roy	R. Bercovitch
Defence	
Y. Slack	A. Charlton
C. Shlackman	M. McWatters

Third II.	Grad-Partials.
J. Wighton	M. Carsley
D. Teed	K. Godwin
Centres.	
Fraser (jumping)	J. Spier
D. Campbell	A. Lamb
Defence	
Johnston	M. Percival
C. Freyvogel	A. Kilgour

Watch—And why does that man always refer to you as his baby girl?
Fob—Oh, I don't know. I suppose he keeps him up so late of nights.

FAST BOUTS IN THE GYM LAST NIGHT

Stars Uncovered in Medicine Eliminations.

MANY SPECTATORS.

Enthusiasm of Boxers and Interest of Students Satisfies Coaches.

The inter-faculty Boxing Eliminations continue to attract enthusiastic crowds of spectators at Molson Hall. The tournament so successfully started by Dr. Lamb and "Cobalt" Brewer has stirred up a great deal of interest in the fist art and as a result many heretofore unknown men at McGill may be counted upon to gather in some points for the Red and White at the intercollegiate next February. Those interested in the sport at the University are determined that this shall be a McGill year in boxing and if last night's bouts can be taken as an indication there is every likelihood that their expectations will be realized. The contestants have been taking their work with a great amount of seriousness and as a consequence the matches have, for the greater part, proved thrillers, much to the satisfaction of the coaches.

Already, several men have been uncovered who show much promise of making the members of last year's team hustle to hold their positions.

Two final faculty contests were decided last night. J. M. Sharpe won the 110 pound championship of Science by a victory over R. J. Sharpe; while Fullerton gained the 118 pound crown in Medicine by defeating Clarke, Merritt and Lane met in the semifinal of the 135 pound division in Science. This class is furnishing perhaps the keenest competition in the tournament. Merritt was awarded the decision in one of the best matches of the evening. Both men displayed a great deal of speed and many clean blows were landed by each.

The remaining bouts were fought by men of the Medical faculty. In the 125 pound class, Sprince, and Snow gave a fine exhibition of boxing. Both boys were fast and clever, and were willing to win it up. Snow was the stronger and by his good fighting in the final round gained the decision. In the other fights in this division Wener beat Scarfe after a fast slugging match; and Quakenbush defeated Simpson.

The 135 pound class, furnished two exciting fights. Ward overcame Lawrence in a bout which was not without thrills. Ward, gave a great boxing exhibition; he has a fine defence and packs a heavy wallop in either hand. Ward, is a former McGill champion, and is expected to come through in fine style this year. Lawrence gained the favor of the spectators by his remarkable display of gameness. Although floored twice by heavy blows, the husky battler came right in and carried the fight to Ward. The boxers were given a great ovation. In the other bout, Sullivan defeated Tanzman. The fighters were evenly matched and the boxing fast.

There was two 145 pound contests. In the first, Stockhanser and Henderson mixed it up for one round, when the latter suffered an injury to his thumb and was obliged to retire. His opponent, however, consented to fight again on Saturday. In the other, Melville gained the decision over "Gav." Chisholm in a great tussle. The victor made use of a mighty right cross and landed several telling blows upon his opponent. The fighting, however, was very even and the winner could not be picked till the final gong.

Mirsky, is the only Med entrant in the 108 pound class and will meet the winners in Arts and Science. Several fights will be staged tomorrow. Reed meets Farmer in Med. 125 pound division; Champion and Warren, of Science, box at 145 pounds; Binns and McGregor, also of Science fight in the 158 pound class. Everitt will meet Garner 145 class; Stearns and Wilson of Commerce, fight at 158 pounds and Doza meets Buzzell at the same weight.

It has been announced that those men who do not appear tomorrow will lose their respective bouts by default. The remaining contestants are instructed to watch announcement in the Daily and to be ready to box at short notice.

MEDS. WIN FROM LAW IN BASEBALL

Score of 12-2 Vanquishes Lawyers.

In a keenly fought game last night at the Montreal High School Gym, the team representing Med. '26 administered a 12-2 trouncing to Law '22.

The game was marked by the excellent pitching on both sides. Philpotts had a slight edge on his opponent, and was given better support. Philpotts and Peacock, for Meds., and Johnston and Robinson for Law, did the heavy hitting. The Meds, after piling up a big score in the first two innings, kept up their lead until the final innings.

"Were you ever pinched for going too fast?"
"No, but I've been slapped."

RUGBY AWARD RECEIVED BY TWELVE MEN

First Grade Block Letters Awarded.

FULL LIST.

Other Awards Also Made to Members of Squads

Football awards were made public yesterday. Twelve men were awarded the first grade block "M" on the Senior squad, and the McComb brothers were granted Grade A numerals, and will receive their block "M's" at the end of their second year.

Following is a list of the awards on the Senior and Intermediate squads.

Senior Team, 1st Grade Major "M."
Anderson, R. B.—Sci. '23.
Ambridge, D. W.—Sci. '23.
Little, L. P.—Med. '24.
Murphy, A. G.—Sci. '22.
Philpotts, N.—Med. '25.
Carroll, A.—Law '23.
Lazier, F. P. L.—Com. '23.
Flanagan, J. C.—Dent. '23.
Russell, J. C.—Sci. '22.
Notman, J. G.—Sci. '23.
Baillie, D.—Sci. '23.
Livshin, N.—Med. '22.
J. McCombe, Com. '24, and R. McCombe, Com. '24, receive "M" at end of second year. Granted Grade "A" numerals.

SPARES ON SENIOR TEAM.

2nd Grade Block "M."
McGregor, D. M.—Med. '24.
Crain, G. E.—Sci. '23.
Cope, S.—Sci. '24.
Easson, J.—Com. '23.
Emo, J.—Com. '23.
Rutherford, A. S.—Sci. '22.
Fitzgerald—Med. '22.
Ross, C. G.—Sci. '22.
Robertson, C. Com. '24, and M. Stearns, Law '24, receive "M" at end of second year, awarded Grade "A" numerals.

SECOND TEAM PLAYERS.

2nd Grade Block "M."
Ross, J. H. D.—Sci. '22.
Armour, J.—Med. '21 (Post Grad.)
Puddicombe, B.—Com. '23.
McLean, D. B.—Arts '22.
Ross, A. G.—Med. '23.
Jones, G.—Com. '22.
Fraser, A.—Sci. '22.
Amaron, E. C.—Arts '23.
Armstrong, A. V.—Sci. '23.
R. Wilson, Com. '24; R. B. Wilson, Com. '24; H. Hyman, Sci. '25, receive M at end of 2nd year, granted Grade "A" numerals.

J. Schwartzman was granted, as a special merit award, a 2nd Grade Block M., injuries having prevented him from playing the required time by 10 minutes.

SUBS ON 2ND TEAM.

Grade "A" Numerals.
Foss, D. B.—Sci. '23.
Brown, N.—Sci. '22.
Freedman, E.—Arts '25.
Beaubien, L.—Com. '24.
Howell, G. R.—Arts '25.

VOLUNTEERS WANTED TO MAKE JUMPING STAND

There are many McGill men who give some of their spare time to settlements clubs, etc.; and there are many who would spare a little time in other directions if any opportunity presented itself. Here, there is an opening for such men.

In the Protestant Orphans' Home there are from fifty to sixty children who make enthusiastic classes for the Physical Education girls in their practice teaching. But there is a great handicap due to lack of equipment, and no funds to provide same. This is not an appeal for money. What is needed in particular, at the present time, is a set of jumping stands. These could be made on the premises of the P. O. H., by the older boys if they had a little instruction. Will any men volunteer to give this instruction? Miss Winch, the matron, will be very willing to co-operate in any way possible, and it is not necessary to say how delighted the youngsters will be.

Any one interested please apply for information to Department of Physical Education (for women) Royal Victoria College.

A man named Du Bose met a girl Who lisped through her teeth of pure pearl.

She: I like your cigarette holder.
He: I don't use one.
She: Oh don't be so dense.

HOCKEY MEETING HELD YESTERDAY

Faculties Well Represented But Science and Law.

A Class Hockey meeting was held last night at which all years in Medicine, Arts, Commerce (and Dentistry were represented. Unfortunately, due to it is to be hoped, to no lack of interest, no one from Science or Law attended. As both faculties have been noted in the past for the support they have given class hockey, it is hoped that they will be better represented in future.

At the meeting a tentative schedule was drawn up and class representatives were appointed as follows:

Medicine:
Adams, L. J. '27
Hamilton, J. S. M. '26.
Lanthier, J. C. '26.
McIntosh, C. A. '24
Shaver, F.
Arts:
Bruno, E. G. '25.
Bulgin, J. B. '24.
Canitey, '23.
Harris, R. C. '22.
Commerce:
Gamil, G. '24.
Gamble, S. '23.
Elderkin, C. F. '22.
Dentistry:
Murray, W. R. '25.
Charland, W. '24.
Kemp, L. E. '23 and '22.

In drawing up the schedule, no attempts was made to fix any time for practice as the weather is so uncertain and good ice cannot be expected until it becomes colder. Undergraduates in Science and Law are urged to get in touch with C. F. Elderkin this afternoon (Thursday) at the Union at one o'clock. It is possible that some arrangement may be made regarding practice hours then.

In any event the hockey schedule will be published later in the Daily. In addition the committee wishes to announce that there will be no senior hockey practice on Wednesday afternoon, as it is desirable to allow the ice to get in good condition as soon as possible.

"TICKLED TO DEATH."
First Bo: "I sure feel tickled today."
Second Bo: "How's that?"
First Bo: "Mother just sent me my woolen underwear."

REDUCTIONS IN MEALS REPORTED.

(Continued from Page 1.)

ries over the 'Daily' phone last night asking if the rumors were founded on fact. Enquiry from the attendants in the cafeteria were made, owing to the fact that the manager had already left for the evening, and the information stated above was forthcoming.

AUSTRALIA BOASTS OF STRONG TENNIS TEAM

Indications are that the team which Australia sends to the United States next summer to play in the challenge rounds of the Davis Cup tournament will be immeasurably stronger than that which represented them last year. Both Norman E. Brookes and Gerald Patterson are expected to play as members of the team, as will James O. Anderson, the conqueror of William T. Tilden in the East-West matches following last year's national championships.

Probably Patterson and Anderson will play the singles and one double-match for the Australian team, while the veteran Brookes and Wood will form the second doubles combination. Due to the victory of Anderson over Tilden which showed that the great player could be defeated, all tennis experts in the southern country have become optimistic and look forward to making a serious bid to recapture the Davis Cup next summer.

ARTS JUNIORS WIN BASKETBALL GAME

Law '24 Suffers Defeat by Score of 30-4.

The Juniors in the Arts Building succeeded in swamping their opponents, Law '24, by a score of 30-4 in a scheduled basketball game played yesterday afternoon. At half-time the count stood at 16-1, and the winners never let up until the final whistle blew. Van Vleit and Woodhouse were the outstanding performers for Arts, both of them playing rings around their opponents.

The game between Arts '25 and Dents '24, which was to have taken place to-day has been postponed. The final games of the second round will be played Friday as follows:

Med. '25 vs. Med. '27, at 6.30.
Dent. '24 vs. Arts '25, at 7.15.
